

# 6th Annual Continuing Education Resource Directory

ADVANCE is pleased to offer you its Sixth Annual Continuing Education Directory. This listing of continuing education providers is categorized into 25 specific practice areas for your convenience in finding continuing education opportunities on the topics of your choice.

There are some 2009 CE providers who advertise their courses in the ADVANCE weekly calendar. This directory

includes provider and contact information from only those who returned our questionnaire asking them to describe their areas of expertise. You can contact these advertisers to find out where and when they are offering their 2009-10 courses and plan your continuing education year.

Our directory will also be available on our Web site at [www.advancweb.com/SP](http://www.advancweb.com/SP) for convenient access all year long.

If you are more interested in choosing particular dates or places, you can continue to seek those in our regular calendar listings.

We hope you find this a useful tool in keeping up with your credits. Please contact [bmccafferty@advancweb.com](mailto:bmccafferty@advancweb.com) with feedback to help us improve the directory for next year.
